INDIA

ABOUT US

E3 Grass is a professional manufacturer of Artificial Grass Carpet and Sports Turf, located in Greater Noida, India.

We started our manufacturing facility in 2021 with the goal of reducing reliability on imports from China & other countries by producing high-quality artificial grass locally.

Carrying the vision of MAKE IN INDIA initiative, E3 is the first Indian brand to produce its own PE and PP yarns for turf.

Our factory has the capacity to produce 150 MT of yarn per month, allowing us to maintain control over quality and regular supply, without depending on imports.

Our state-of-the-art facility, equipped with advanced machinery, has an annual production capacity of 20 million sq. ft. grass.

E3 Grass is a vertical of the E3 Group, a well-established name with a 30-year-old legacy, in manufacturing Interior and Exterior Decorative Products such as Laminates, PVC Edge Band, Aluminium Composite & Polycarbonate Sheets, Hardware, & Clads, with a network of 5,000+ dealers across India.

At E3 Grass, we are committed to producing high-quality products and fulfilling our promises to customers. We value long-term relationships that focus on mutual growth.
